

Vancouver Crane Training Schools

Vancouver Crane Training Schools - We have designed several programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who requires certification or re-certification, and for inexperienced operator who is searching for work in the industry. Crane operator positions are in demand due to their high pay. Crane operators are among the highest paid of whatever operator of heavy equipment.

Our Crane Operator training provides instruction for various mobile cranes. Course content includes Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling.

The program is best for crane riggers, operators as well as their supervisors. The materials included in the course would consist of a manual and numerous informative handouts. The illustrated safety manual features one hundred to two hundred fifty pages, depending on the course, of helpful and important material. Course materials include load exercises and load charts for the crane with which the trainee is working.

More than half of the course consists of Hands-On Safety Training. Practical training is useful for developing and increasing personnel skills levels. Just skilled journeyman crane instructors are selected to teach the courses. Our instructors possess many years of business experience.

For all the course we provide, we could include optional testing mechanisms to customize your training. A test for skills is normally administered for programs that include H.O.S.T. Trainees will be graded and tested.

We provide certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Testing & Certification.

Industry standards of practice are changing as new industry requirements surface. There are constant updates to legislation and regulations. Enhancements in technology and equipment continue to be made. Industry data analysis and collection detect trends that are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members ahead of workplace and personal safety news.
